## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-9 and 19-36, drawn to an external counterpulsation system for treating a patient and for providing/recording patient information, classified in class 601, subclass 152.
  - II. Claims 10-18, drawn to a computer-implemented system for recording patient information, classified in class 600, subclass 300.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the data structure recited in claim 1 does not require to store treatment information and the computing device does not require to control the operation of the device. The subcombination has separate utility such as the computer-implemented system recited in claim 10 can be used for recording patient information from other medical devices, for example a chest compression device.

Art Unit: 3764

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Quang D. Thanh whose telephone number is (703) 605-4354. The examiner can normally be reached on Monday-Thursday & alternate Friday.
